CJEU – The most important cases in the field of direct taxation

This book discusses the most important cases in the field of direct taxation pending before or recently decided by the CJEU. Moreover, the national background of these cases is discussed and possible infringements of the fundamental freedoms and State aid rules are analysed.

The analyses are presented by esteemed national and European tax law experts. The contributing authors' focus on the preliminary questions submitted to the CJEU by the national courts and the CJEU case law could be of relevance for driving future judgements. This book goes to the heart of the national tax systems, exposing hidden obstacles to the fundamental freedoms.
