A Global Overview of International Tax Disputes on DTC

This book is a unique publication that provides a global overview of international tax disputes on double tax conventions and thereby fills a gap in the area of tax treaty case law. It covers the 37 most important tax treaty cases that were decided around the world in 2021. The systematic structure of each chapter allows for the easy and efficient study and comparison of the various methods adopted for applying and interpreting tax treaties in different cases.

With the continuously increasing importance of tax treaties, this book is a valuable reference tool for anyone interested in tax treaty case law, including tax practitioners, multinational businesses, policymakers, tax administrators, judges and academics.
